

Youssef Sherif Mohamed

Computer Engineering Student | Data Analyst

Cairo, Egypt | youssef.sherif123789@gmail.com | 01002355934 | linkedin.com/in/youssefsherif1

OBJECTIVE

Final-year Computer Engineering student with hands-on training across AI, mobile development, and data analytics. Combines a strong programming foundation (C++, Python, VHDL) and coursework in Data Structures & Algorithms and Databases & Advanced Databases (MySQL) with practical experience building data-driven insights through Excel, Power BI, and Tableau. Eager to apply a problem-solving mindset and continuously growing technical skill set to deliver real impact in a dynamic organization.

EDUCATION

Bachelor of Computer Engineering

2022 – Present

Faculty of Engineering, Modern Academy — Final Year

PROFESSIONAL EXPERIENCE

Data Analyst Trainee | Digital Egypt Pioneers Initiative (DEPI)

07/2026 – Present

- Enrolled in a professional data analytics track, having completed the majority of the program's core skills.
- Currently building proficiency in Excel, Power BI, and Tableau to complement existing SQL and Python skills.
- Working on translating raw datasets into clear, actionable business insights.

AI Trainee | AMIT

- Completed a training track covering Machine Learning and Deep Learning fundamentals.
- Worked with Python AI/ML libraries, including TensorFlow and Scikit-learn.
- Covered Natural Language Processing (NLP) concepts and applications.

Flutter Development Trainee | EDGS

- Built mobile applications using Dart and the Flutter framework.
- Applied state management techniques and integrated Firebase for backend services.
- Practiced UI/UX design principles and API integration within mobile apps.

SKILLS

Programming Languages: C++, Python, VHDL, Dart, JavaScript, HTML5, CSS3

Data & Databases: SQL, MySQL, Advanced Databases, Data Structures & Algorithms

Data Analysis Tools: Excel, Power BI, Tableau, Data Cleaning, Exploratory Data Analysis (EDA)

AI & Machine Learning: Machine Learning, Deep Learning, NLP, TensorFlow, Scikit-learn

Mobile Development: Flutter, Firebase, State Management, API Integration, UI/UX

Soft Skills: Self-Confidence, Effective Communication, Continuous Learning, Adaptability, Teamwork

PROJECTS

Fashion Hub — Online Clothing Store

Sep 2023

- Developed a responsive online clothing store as a university training project, featuring product browsing and database integration.

Tools: HTML5, CSS3, JavaScript, MySQL

University Student Transportation Company Database

Feb 2024

- Designed a complete database system for a university student transportation service from the ground up.
- Built the ERD and EERD, and mapped the conceptual design into a relational schema.

Tools: SQL, MySQL, ERD/EERD Design, Schema Mapping

Task Flow — To-Do List Mobile App

Jun 2024

- Developed a to-do list mobile application with task creation, editing, and completion tracking.
- Implemented state management and integrated Firebase for real-time data storage.

Tools: Flutter, Dart, Firebase

Maze Game

Aug 2025

- Built a desktop maze game in Python demonstrating problem-solving, game logic, and object-oriented programming.

Tools: Python, Pygame, Object-Oriented Programming (OOP)

CreditScope — Bank Loan Eligibility Predictor

Mar 2026

- Built a machine learning model that analyzes customer data (income, credit history, demographics) to predict loan eligibility.
- Applied data cleaning and exploratory data analysis to prepare the dataset for modeling.

Tools: Python, Machine Learning, TensorFlow, Scikit-learn

LANGUAGES

Arabic (Native) | English (Very Good)
